Check # _____

See back for further details to pay Registration fees online.

Any unpaid fees from the previous school year(s) will remain on your student's account until they have been paid in full.

INTOUCH ONLINE PAYMENTS

The school district uses an online payment system called InTouch. InTouch may be accessed from the Fees page in eRegistration OR directly from the main page of the website www.mountvernon.k12.ia.us, Log Ins, InTouch.

InTouch can be used to make deposits into family meal accounts for breakfast and lunch, make payments for school registration fees, paying fines and fees from previous years and making day care payments.

InTouch allows payments to be made by either debit card or credit card from VISA, MasterCard, and Discover. It is integrated with the school dining system, Total Access, so online payments for the family meals account will directly update the family's lunch account in Total Access. InTouch is a great way to save yourself time and there are NO convenience fees to use the system!

For payments, InTouch uses both the student's five digit school identification number and the student's last name to credit payment of fees to the correct student account. This is the same five digit student identification number that students use at school for lunch, and also appears in Total Access and the eRegistration system for each student. ****Remember that you cannot use the student ID of a student that has already graduated. They are no longer active in the system.**

For further information on InTouch, see the InTouch explanation document included in the registration materials. If you have questions regarding the InTouch program, please contact Amy Weber at (319) 895-8845 or aweber@mvcsd.org
